## PROPOSAL

# MOBILE APPLICATION DEVELOPMENT

## ABOUT US

AP Technosys has been the leading digital marketing and IT consulting firm in Mumbai, has years of experience in digital marketing and sets the difference for the clients.

AP Technosys professionally certified team members are self-driven and self-motivated. Here, we also love to play with the data generated from the website's insights. With the correct insights and timely interpretation, our clients receive the satisfaction they aspire, demand, or need using our expertise.

## INTRODUCTION

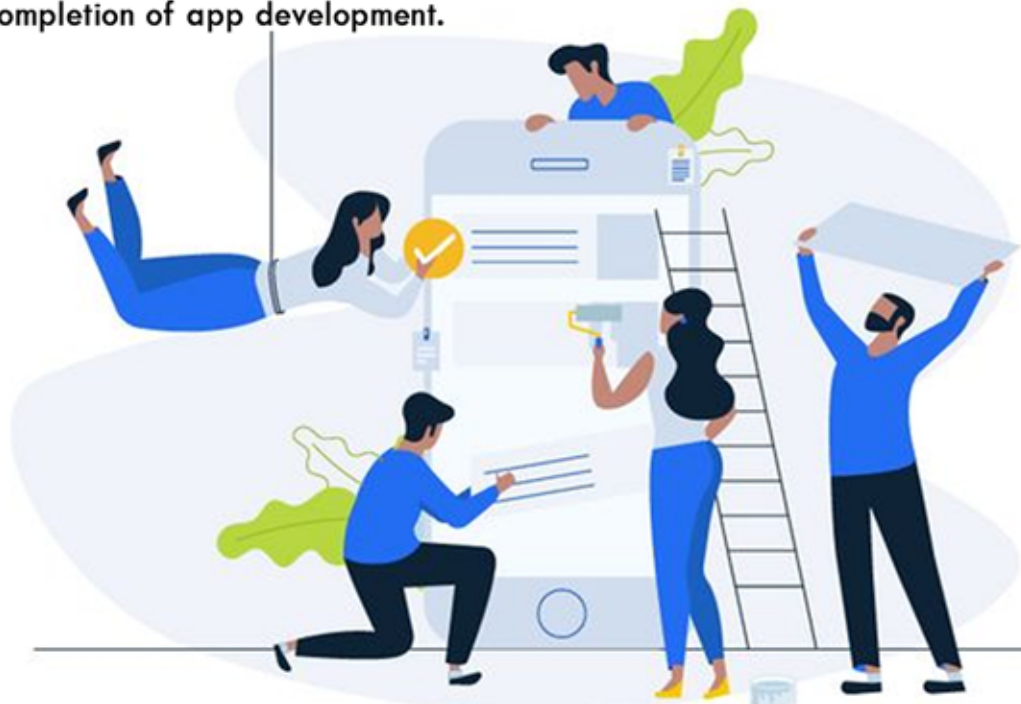

Today, the mobile app development industry pertains to one of the peak markets in India and around. India has the highest number of mobile penetrations by netizens. Even the SEO scores of the business sites are now highly dominated, manipulated, and justified by the users who are using mobile phones or devices rather than simple desktop interfaces.

Thus, AP Technosys understand the need for crisp, real-time, and updated mobile application development in India. Our team is experienced and highly dedicated in providing you user-friendly applications as per your budget and deadlines; it offers your services like bug fixing and a lot more advantages under the mobile application development contracts.

AP Technosys stands out in the market for the popular mobile application development services because we readily offer 15 days free maintenance support for every app we develop. We provides Technical design plan flow to be ready on demand and apps of your choice.

Our expert app developers also offer you an on-point Play Store and App Store account application hosting additional facility if you are new into the field of mobile app development. We can easily take care of the hosting on individual demands.

We also provide prompt crash and error reports to keep the transparency between both the parties before, during, and after the completion of app development.
